

Use copies of this sheet for testing before printing real labels. For best results, make sure automatic scaling on your printer is turned off.

$\frac{1}{2}$ inch from top edge of paper 

The distance between the top of your paper and the thin line above the arrow on this label image should be exactly $\frac{1}{2}$ inch / 12.7 mm

 $\frac{1}{4}$ inch from left edge of paper

The distance between the left side of your paper and the thin line on the left side of this label image should be exactly $\frac{1}{4}$ inch (6.4 mm)
